Brief Industrial Profile of Bhavnagar District

1. General Characteristics of the District

1.1 Location & Geographical Area

Bhavnagar District is situated in South East corner of Saurashtra Peninsula of Gujarat between 21.18° North Latitude and 71.03° to 72.09° East Longitude. It is surrounded by Surendranagar and Ahmedabad Districts on North , Rajkot and Amreli Districts on the west , Arabian Sea on South and Gulf of Cambay on East. It has a Coast line of about 152 Kms . It has a geographical area of 9971 Sq. Kms.

1.2 Topography

The district is an agro-climatic zone VI (South Saurashtra) and VII (North Saurashtra). The climate of the district varies from hot to moderately hot throughout the year except in winter. The climate is humid along with the belt. The maximum temperature of the district is 44.0 degree centigrade while the minimum temperature is 9.0 degree centigrade. The average rainfall of the district is 732 mms brought by south west wind during rain in thr district.The rainfall at the main headquarter in the district was registered 732 mms. The entire district receives an equal rainfall. However, Gadhada, Galiyadhar, Botad and Umralla taluka receive less than the average rainfall in the district.

1.3 Availability of Minerals

Important minerals available in the district are Lime Stone, Bentonite, White Clay , Dolomite, Atta Pulgite Diatomaceous earth. Trap Rock etc. Huge deposits of lignite are also available in Ghogha and Bhavnagar Talukas. Commercial production is yet ti begin. GIPCL has got the lease and is putting up 375 Mega Watt Thermal Power Station in near future in Ghogha Taluka. The work of power station is yet to be started . NIRMA, GMDC , Gujarat Heavy Chemicals and others have also applied for mining lease of lignite. Two companies have executed lease arrangement and permitted to start project. GHCL has started production of lignite.

3.6 Growth Trend

Ship Breaking is the biggest industry in the district. At present ,there are 190 Plots at Alang and Sosiya for Ship Breaking Activity. It is the largest Ship Breaking Yard in Asia.Total tonnage broken up to March 2009 comes to 30634131Metric Tonnes. So far 4790 Ships have been broken . It employs about 30000 employees . Down Stream Industry to Ship Breaking Industry is Rolling Mills and Induction Furnace. There are 121 Re-Rolling Mills registered in Bhavnagar District with an installed capacity of 8.19 Lacs Metric tonnes per month. Total investment in these industries comes to Rs. 124 crores with an total direct employment of 12000 workers. Out of 121 mills. Only 58 are working and 69 are closed .Industrial oxygen is the second activity related to Ship Breaking industry. There are about 137 Units registered and engaged in this activity with an investment of Rs 150 crores and provides about 5000

direct employment. Turnover under this activity has mounted to Rs. 65 Crores. At present, only 15 units are working.

In Bhavnagar district, up to 31.03.2009, there are 10080 Registered small scale units involving investment of Rs . 282 crores in the sectors which includes textiles, chemicals, engineering, glass & ceramics and wood products. There are 8760 running units that provide 49587 direct employment .

Besides, ship breaking industry, second largest small scale and cottage industry is diamond cutting and polishing which provides employment to 74000 employees approximately and 927000 carats of diamonds are polished every year. This sector is totally unrecognized. In Bhavnagar district , at present ,there are 4340 units engaged in diamond cutting and polishing. Investment in the industry is about Rs. 1890 Lacs.

Bhavnagar is also an emerging hub for cement, Gypsum and food processing industries. The cement and Gypsum sector alone attracted investments to the tune of USD 0.40 billion in the last decade, while the food processing industry has grown 250 times and has gained investment worth USD 19 million.

A whopping 87 % of investment in Bhavnagar has been witnessed in the infrastructure.

3.7 Vendorisation/ Ancillarisation of the Industry

Considering the requirements of medium/large scale industries in the district, there is a wide scope for manufacturing of following products.

- 1)M.S.Pipes & Fittings
- 2) S.S.Pipes & Fittings
- 3)M.S.Bolts & Nuts
- 4) S.S.Bolts &Nuts
- 5)V.Belts

- 6) Oil Seals "o" Rings Rubber parts
- 7) Structural Steel

Mineral based industries

Cement plant

Mosaic chips

Stone Crushing Foundrty

Engineering based industries

Tractor & Agricultural equipments

Decorative Grills

Electrical equipments

Steel re-rolling mills

4. Existing Clusters of Micro & Small Enterprises:

No data about existing clusters is available and provided by the DIC, Bhavnagar.

5. General Issues raised by industry association during the course of meeting

The utmost problem is very low awareness in MSMEs about government schemes and subsidies because of lack in corporate governance or due to communication system of the government itself. There are lots of incentive schemes and packages especially designed for MSMEs but most of the entrepreneurs remain unaware of it.

Lack of skilled human resources has also affected the sector at noticeable level. Technology intervention is still very low in the sector . Artisans and weavers still have been remained unaware or latest designs and current market trends. They continue to manufacture products with old designs which fail to generate consistent demand in consumer markets. There is still huge gap among the household unit owners / weavers/ artisans and the designers/ engineers. There is immense need to encourage engineers and fashion designers to work out with these small unit's owners , weavers, designers which would be mutually beneficial and help revive the sector and make it globally competitive. Information dissemination about availability of recent technologies ,literature on modern machinery , contact details of suppliers of raw materials ,buyers etc. are very essential for the MSMEs.

Another ,major problem is related to payment durations normally faced by the MSME entrepreneurs .Mostly they are causing delay in payments and bed debts which causes trouble in the working capital ratio. Low credit period provided by the suppliers and on the other side late payment made by the customers also creates imbalance in the working capital.

One of the major concerns is low credit availability to the MSMEs .Though, credit to MSMEs fall under the category of priority sector lending . but with the expansion of the priority sector lending to accommodate fast growing areas such as home loans, education loans ; the percentage share of credit to MSMEs have been fallen down. There is strong need to increase the target of commercial bank lending to MSMEs from 20 % year on year to 30 % which will enhance facilities to MSMEs.
