Brief Industrial Profile of Dahod District

1. General Characteristics of the District

1.1 Location & Geographical Area

District Dahod is located 20.30 to 23.30 Degree Latitude and 73.15 to 74.30 Longitudes in north and located on the northern side of the State. It has an area of 3943 sq.kms. is surrounded by Godhra district and Rajasthan and Madhya Pradesh State.

1.2 Topography:

The people of this district are mainly dependent on rain water for cultivation as the irrigation potential developed so far is very limited. The district has subtropical climates. It is hot during summer and cold in winter. It receives rains 1000mm to 1150mm during the year. Since the agriculture which depends on rains water gets drought in alternate year. Thus the crop suffers to great extent and people move for livelihood from one place to another in search of work.

5. General Issues raised by industry association during the course of meeting

Dahod District is main problems of MSE Sector are high rate of electricity and Shortage and irregular supply of power, lack of working capital funds, scarce raw material and skilled labour are some of the problems faced by the MSE units. Major constraint faced by GIDC Estates is water shortage. Availability of potable water and water for industrial use poses a problem. High cost of plots, as a result of high purchase prices are also a constraint in industrial development.
